Setup

How to Load Paper Roll

The Dejavoo QD3 Pin Pad is a mobile point-of-sale device or mPOS. It is a compact pin pad designed to fit in your pocket and be used on the go.

As such, the Dejavoo QD3 does not come equipped with a built-in printer. However, merchants can use the Dejavoo app to send text or email receipts to their customers. Printing out a receipt using a separate main terminal is also an option.

How to Turn On/Off

1. Power On: Press and hold down the power button on your device until your Dejavoo QD3 activates.
2. Power Off: Press and hold down the power button on your device until your Dejavoo QD3 powers off.

How to Set Up an Ethernet or Wifi Connection

Connect to Ethernet

The Dejavoo QD3 is not compatible with Ethernet connectivity.

Connect to WiFi

To successfully connect your QD3 to WiFi, please adhere to the following instructions:

1. Power on your QD3 device.
2. On the home screen, select SETTINGS. If prompted, enter the Manager Password (1234).
3. In SETTINGS, select either WIFI, WLAN, or NETWORK.
4. After you select WIFI, WLAN, or NETWORK, your device will display a list of available WiFi networks. Find your home network and select it. Make sure you have your network name and password handy.
5. Enter your network password and press either JOIN or CONNECT to join the network.
6. The WIFI icon on your QD3 screen will indicate your connection to the network.

Dejavoo QD3 - Default Password

The default password for the Dejavoo QD3 is 1234.

Accept Payments

How to Accept Multiple Payments on the Dejavoo QD3

The Dejavoo QD3 pin pad is compatible with most payment types, including EMV chip, magstripe, PIN pad payments, and contactless options. It is also compatible with third-party payment alternatives such as MasterCard PayPass and American Express ExpressWay.

The Dejavoo QD3 is bolstered by robust PCI-compliant defense measures and Pin Transaction Security 5.0 protection. It safeguards sensitive cardholder data and ensures security when processing customer transactions.

How to Process a Sale

Chip Credit Sale

1. Select the CREDIT icon on your home screen.
2. You will be presented with SALE, VOID, BALANCE, etc. Select SALE.
3. Enter SALE amount, then confirm.
4. The cardholder will be prompted to swipe, insert, or tap their card. Cardholders should insert their card with the EMV chip facing up or exercise the contactless tap option.
5. The transaction will either be approved or declined. The cardholder may be prompted to sign for the purchase.

Manual Entry Credit Sale

1. Select the CREDIT icon on your home screen.
2. You will then be presented with SALE, VOID, BALANCE, etc. Select SALE.
3. Enter the total SALE amount, then confirm.
4. The cardholder will be asked to swipe, insert, tap their card, or enter the card details manually. Select ENTER CARD #.
5. Enter the card number and confirm.
6. If prompted, enter the card's expiration date, then confirm.
7. Press YES if this is a card-present transaction. Press NO if this is a card-not-present transaction. Merchants performing a manual entry for a card-not-present transaction may be asked to enter the AVS or card code security details.
8. If this is a card-present transaction, the merchant must use the keypad on their QD3 device to enter a zip code, billing address, and CID number.
9. The sale will either be approved or declined.

Accept Payments Cont.

6. Enter the VOID TRANSACTION #, then confirm.
7. The VOID will either be approved or declined.

Void Credit Transaction (Card Not Present)

Note: The process outlined below technically involves voiding a card-based transaction using the TRANSACTION #.

1. Access FAVORITES in your Dejavoo QD3's menu.
2. Select VOID TRANSACTION. If prompted, enter the Manager Password (1234).
3. Find and select BY TRANSACTION #.
4. Enter the number of the transaction you wish to VOID, then confirm.
5. To select the transaction you want to VOID, press and confirm the SELECT button at the bottom of your screen.

How to View Reports

1. Access your device's CORE MENU.
2. Select REPORTS.
3. In the OPEN/CLOSED batch, select REPORT to proceed.
4. Select a report type: Daily, Non-Cash, Summary, Tipped, or Un-Tipped.
5. Select NEXT and the report will appear.

Troubleshooting & Tips

How to Do a Factory Reset

A factory reset on your Dejavoo QD3 pin pad will effectively wipe all data from your device, including customized settings and transaction history. However, Dejavoo does not recommend users perform a hard reset independently. Performing a reset on the QD3 completely erases the device's Market application. If instructions are not followed diligently, there is a considerable margin for error.

One solution involves clearing previous configuration settings and starting fresh with a new TPN. Dejavoo users who plan on clearing the Aura application from a prior configuration will want to clear their Data from the Android settings.

Below are the steps required to delete CreditApp and/or PinpadApp:

1. Select SETTINGS on the Android home screen.
2. Select ABOUT POS.
3. Select POS CONFIGURATION.
4. When prompted, select your Administrator Login. Your password for this login will be 01062009 or 99999999. Following this, be sure to double-confirm your login.
5. Select the back arrow twice, then navigate to APPS.
6. Select DVPAY.
7. Select STORAGE.
8. When prompted, select the CLEAR DATA option.
9. Return to the home screen.
10. Merchants are encouraged to back up sensitive data before resetting their Dejavoo device.

How to Reboot Your Dejavoo QD3

To reboot your Dejavoo QD3, follow these steps:

1. Press the small button on the side of your QD3 that features a dash inside a circle.
2. Hold down the button until you see a MENU display on the screen of your QD3.
3. Select from a series of options: AIRPLANE MODE, POWER OFF, REBOOT, or SILENT MODE.
4. Select REBOOT.

Troubleshooting & Tips Cont.

How to Reset the Password for the Dejavoo QD3 Terminal

To edit/reset the password on your Dejavoo QD3, follow these instructions:

1. Access your device's CORE MENU.
2. If prompted, select UTILITY.
3. Select SECURITY.
4. Select EDIT PASSWORD.
5. Use the keypad on your Dejavoo QD3 to create your new password. You may or may not be prompted to enter your old password before proceeding with the new one. If this is the case, confirm your old password before setting up a new one.
6. Re-enter your NEW PASSWORD to confirm.

How to Use the Dejavoo QD3 in Multiple Locations

The Dejavoo QD3 is a portable pin pad that can be used anywhere with WiFi, 4G, or Bluetooth connectivity.
